Help for Online Entry

I. Entry Steps

1. Log in to the online entry page at **nevezes.dogshow.hu** using the data provided during registration (e-mail address and password). If you have not yet registered, register at the following link: https://nevezes.dogshow.hu/registration
2. After logging in, the shows can be seen on the home page. You can enter a show by clicking on the **Entry** button for the row of the given exhibition in the Operation column of the table.
3. Only previously registered dogs can be entered. If there is already a registered dog, the entry form is displayed, if no dog is registered, the system offers this option instead of entering. From the list that appears in the **Dog** field on the entry form, select the one of your dogs that you wish to enter for the exhibition.
4. After selecting the dog, specify the **class** in which you wish to enter your dog. Here the system only lists the classes in which the selected dog can be entered at all.
5. By clicking the **Entry** button, your entry will be added to the basket.
6. You have the option of entering an additional dog or paying for the contents of the basket.

Attention! The so-called registered user is the entrant himself/herself, the entrant and the owner of the dog must be the same in all cases. The entrant is responsible for the correctness of the data provided during the online entry.

II. Federal membership card and the discount it provides

You can record the actual year's federal membership card number after logging in, under the label Welcome, with the **Edit**

your data link. It will be activated after saving the data, if it is already activated in the MEOESZ system! **It is important that the name information on the membership form and the online registration are identical!**

The entry fees are valid only for owners with a valid federal membership card, a domestic registration number (MET.) and a domestic address. For foreign owners, the federal membership card does not entitle them to discounted entries. In the absence of any condition, owners must pay doubled amount of the indicated entry fee.

III. Hungarian breed discount

For exhibitors with a domestic registration number (MET.) and a domestic address, the entry fee for Hungarian dog breeds is 50% of the amounts listed in the entry table.

IV. Dogs without a pedigree yet

Into Minor puppy and Puppy classes, instead of the pedigree number, you can enter your dog without pedigree yet adding the MET. registration number, the chip number and uploading the vaccination book, only if the litter registration is already in progress at MEOESZ Hungarian Kennel Club.

V. Password management

If case you wish to change your password, after successful login, you can do so by clicking **Edit my data** and then **Modify password** link.
